

APPLY NOW for Remarkable Accelerator 2022

Naomi Simson [00:00 - 01:02]

“When I think about the world of innovation, startup, or any business, really, I think of the human need that sits inside of that.

The need to connect, to learn, to discover, to grow, it is about creativity, but we are just at the beginning of realising how human potential can help us achieve so much more.

With 15% of the world's population living with a disability, technology innovation can further enable human potential.

Remarkable is an innovative startup accelerator made possible by the Cerebral Palsy Alliance, committed to developing human tech that is enabling for everyone.

Remarkable offers you room to explore your ideas and competitive startup seed funding. As well as a network of mentors, coaches, even user testers, and a ready-made market.

If you have an idea to enable human potential, why not build it now with Remarkable?”
