

# EMANUEL RÖHSS

22 March/ 20 May 2015  
preview 21 March 7:00 pm

Exchiesetta is pleased to announce a solo exhibition of new works by Swedish artist, Emanuel Röhss.

Emanuel Röhss will produce a body of site specific works following on from a residency in Rome and preceding his solo exhibition at T293, Rome.

The exhibition will include three sculptures and one large canvas work and it will feature the same themes of his solo exhibition in Rome namely the private realm of Los Angeles domesticity, residencies of particular emblematic character in relation to the development of this locality, and staged reality, the home as a private island.

Emanuel Röhss is a multi-disciplinary artist, working through sculpture, painting and installation with a particular focus on site specificity. His practice interrogates and extrapolates the relationship between art and architecture, functionality and aesthetics. There is a parallel trajectory in Röhss's work, to the Duchampian ready-made, that explores agendas of appropriation and facsimile.

## **About the artist**
