WORK EXPERIENCE

Dbuntu Africa
FOUNDER & CEO, DEC 2020 - PRESENT

Dbuntu.com
INVESTMENT MANAGEMENT COMPANY

Dbuntu Africa is a one-stop venture centre for businesses in Africa looking to scale up. With a suite of 5 sub-entities; Dbuntu Capital, Dbuntu Ventures, Dbuntu Data, Studio Dbuntu, & Dbuntu LABS, we are on a mission to be the first 100% data-driven Private Equity (PE) Investment Management Firm in Africa and are seeking to reach \$1 billion Assets Under Management (AUM) in our pioneering Dbuntu Africa Growth Fund by 2030.

A.M.B Capital
TRADER, MAY 2019 - PRESENT

.6 A.M.B | CAPITAL

As a Trader at A.M.B Capital, my day-to-day job involves market research, strategy backtesting, trade planning & execution, portfolio optimization, algorithm development, as well as risk & money management. We currently operate in agricultural commodity markets across Africa, and are conducting research around the prospects of an African Continental Free Trade Area (AfCFTA) in order to develop the technology & data products to facilitate lucrative opportunities in inter-African trade.

Trinity University Student Managed Fund
PORTFOLIO MANAGER, AUG 2017 - MAY 2018

I was responsible for managing 25-35 U.S. Stock Equity positions in Trinity University's Student Managed Hedge-Fund (SMF) portfolio with a fair-market value in excess of \$6 million. The fund bridged the gap between financial theory & real-world application, introducing me to professional wealth management as the fund managed a portion of the University's \$1.28 billion endowment.

Lifecache App | Greek Plug LLC
BUSINESS ANALYTICS INTERN, JUL 2015 - AUG 2016

At Lifecache & GreekPlug, I had the opportunity to join an extraordinary team of visionary and focused entrepreneurs. My role as a Business Analytics Intern involved finding data, performing statistical analysis, and communicating my findings with simple data visualizations to aid our decision-making with evidence.
