Our Roots

We started out as a small pastry shop in Ozone Park, Queens in 1960. Making pasta, especially tortellini, was Joseph Seviroli's real passion. Tortellini was rare in New York at the time. He purchased a machine from Italy and started manufacturing in the basement of the pastry shop.

It wasn't long until word got out about the pasta, and soon people were lining up out the door... except this time it wasn't for pastries! Demand continued to rise as customers lined up around the store to get their hands on authentic Italian tortellini. Joseph quickly realized that the pastry shop's basement was not sustainable for rising consumer demand and decided it was time to officially open a pasta shop. That led to the purchase of a nearby building in Garden City, New York, where three additional tortellini lines were added to the facility and Seviroli Foods was officially born.

Today, we are still family owned and operated, we still use only authentic ingredients our grandparents used when making pasta from scratch and everything is still made on equipment imported from Italy. From our family to yours, only the best will do!®

Our Ingredients

We use only the finest semolina and search the world for the best spices, herbs and other premium ingredients that go into creating our delicious filled pastas.

The texture of our pasta is in the best Italian tradition: rolled very thin and tender, yet with the perfect "al dente" texture. Our fillings are unusually generous in ratio to the pasta, so every bite bursts with flavor.

Frozen is Fresher

Our chef inspired pasta is made with high quality ingredients on Italian equipment. Each pasta is individually quick frozen within minutes of being produced, locking in exceptional flavors and freshness. This is unlike refrigerated or so called "fresh" pasta, which is packaged and flushed with gas to slow bacterial growth. Choose our frozen pasta to ensure an authentic taste, nutrition and safety. Freezing is nature's way of preserving!
