

DroneTalks Academy is launched To Educate In The Drone Ecosystem

Eszter Kovacs, formerly acting Secretary General of the Global UTM Association (GUTMA) and Lorenzo Murzilli, Founder and CEO of Murzilli Consulting and former Swiss Federal Office of Civil Aviation (FOCA) Leader and U-Space Programme Manager, have launched the DroneTalks Academy, a fully interactive environment in which students share and collaborate with teachers and classmates on two drone industry courses.

Executive briefing in Drones

In this one-day virtual session, you will rapidly build your understanding of the latest drone regulations and the essential stakeholders, as well as discovering the best framework for operating with clarity.

Whether you are an aviation decision maker, an enterprise, part of an association or a governmental drone program, or the founder of a drone or traffic management related start-up – if you need to gain an overview in the most time-efficient way, this is the course for you.

Essentials:

- Next course date: 3rd of March 2021
- Teacher: Lorenzo Murzilli, CEO at Murzilli Consulting

First Hire Diploma in Drones

The first of its kind, this course is designed to give you a 360 overview of the drone ecosystem in just 6 weeks.

This course will equip you with a full understanding of drone services technology and the associated regulatory implications. It will also delve into the business strategies and operational requirements that you need to successfully participate in the drone ecosystem. Whether you are a new employee in the drone industry, working in marketing or software development, are the executive of a drones related programme or are running a governmental project, the First Hire Diploma in Drones will equip you with the essential knowledge you need to succeed.

Essentials:

- Next course date: 19th of April 2021
- Teachers: to be announced
