# Old World TRADITIONS

Dear Colleagues,

*Buona Vita, Inc. established the core principles of providing superior quality, exceptional taste and commitment to customer satisfaction the day we opened our doors in 1988. Since then our company has grown and evolved but those principles remain constant.*

*Using only state-of-the-art equipment in a HACCP-compliant, SQF Certified facility and the finest ingredients, we have the capabilities of producing 84,000,000 pounds of meatballs, our signature product, annually. Our offerings have increased and today we have among our loyal customers some of the finest restaurants and retailers.*

*We continue to explore new products and variations on our already popular lines. In addition to our branded items we strive to be the leader in custom formulated products that meet the specifications of our customers.*

*The future for Buona Vita is bright. With feedback from our local, regional and national customers, we can stay on track, earning your respect and loyalty. We are confident you will find us an exceptional provider of center-of-the-plate solutions that help distinguish your menu.*

Sincerely,

Paul Infranco  
President
