There's a wing craze going on. And nothing satisfies the craving like PERDUE® Wings. From the juicy, tender meat inside, to the bold, scrumptious flavors outside, our wings make wing lovers weak in the knees.

CHICKEN WINGS SOAR IN POPULARITY

- Chicken wings are among the top 10 appetizers in foodservice¹, with buffalo wings as the most menued chicken wing flavor.²

SIZE UP THE RIGHT WING FOR THE JOB

PERDUE® Wings come in a variety of sizes for any application. Here are some guidelines for choosing the right ones.

SMALL WINGS: Great for consumers who like to dig into a big pile. The best choice when selling “by the pound.”

LARGE WINGS: With more meat on the bone, many consumers know “bigger is definitely better.” Large wings, when sold by the piece, are impressive.

JUMBO WINGS: Talk about eye appeal—jumbo wings are a real knockout. Great for buffets or all-you-can-eat specials because they're quickly filling.

BREADED WINGS

- Available in a variety of popular sizes
- Great breading adhesion means you'll never want to bread from scratch again
- Flavors include Homestyle, Mild, Spicy and Honey

STYLE POINTS—MATCH THE TYPE OF WING TO THE APPLICATION

GLAZED WINGS

- Cook perfectly in all types of ovens for a piping hot presentation
- Already sauced and flavored for easy preparation and consistency
- Available in classic Buffalo and BBQ styles

BONELESS WINGS

- Great for appetizers, bar snacks or kids meals
- Perfectly breaded, tender and delicious
- Good enough to serve plain or with the sauce of your choosing

ROASTED/ STEAMED WINGS

- Fully cooked wings go from freezer to fryer or oven in minutes
- Rotisserie and savory wings look and taste great by themselves
- Steamed wings are an alternative to raw individually frozen or fresh wings
- Our fryable marinated wings serve up hot and spicy without the need to sauce
